

# Coapresta<sup>®</sup> 2000

Offering the benefits of a **small footprint** with **high-throughput**, combined with **excellent** reagent **performance** and **stability**, the Coapresta<sup>®</sup> 2000 (CP2000) system is a flexible choice for laboratories of all sizes.

COMPACT  
CAPABLE  
FLEXIBLE

# CP2000

## PRODUCT DETAIL

<b>TEST THROUGHPUT</b>	Up to 400 tests/hour (clotting assays); Up to 200 tests/hour (including chromogenic and turbidimetry assay)
<b>SIMULTANEOUS MEASUREMENT ITEMS</b>	Up to 20 items
<b>MEASUREMENT PRINCIPLE</b>	Light scattering photometry method for clotting time assay, absorbance photometry method for chromogenic and latex turbidimetry assay
<b>LIGHT SOURCE</b>	LED (660nm), halogen lamp (405/570/730nm)
<b>SAMPLE COMPARTMENT</b>	Rack-turntable system holds up to 60 samples
<ul style="list-style-type: none"> <li>• <b>STAT SAMPLE</b></li> </ul>	3 dedicated STAT ports. Racks can be prioritised.
<b>REAGENT COMPARTMENT</b>	25 refrigerated positions
<b>CALIBRATION</b>	Automatic dilution setting, INR calibration curve, automatic switching of calibration curves
<b>QUALITY CONTROL</b>	X-chart, twin plot
<b>OPERATING SYSTEM</b>	Windows® 7 or Windows® XP
<b>BARCODE</b>	
<ul style="list-style-type: none"> <li>• <b>REAGENT BARCODE READER</b></li> <li>• <b>SAMPLE BARCODE READER</b></li> </ul>	Hand-held Internal reader. Reads 16 digit, 2 of 5, CODE 39, CODE 128, NW 7 barcode types
<b>PHYSICAL DIMENSIONS</b> (main unit only)	W 26.4 in. (including STAT) x D 27.6 in. x H 46.9 in. W 670 mm (including STAT) x D 700 mm x H 1190 mm
<b>WEIGHT</b> (main unit only)	374.8 lbs, 170 kg
